

Life-Enriching Education

INNOVATING LIFE FOR TOMORROW

Empowering Education Research Today

TORAY contributed RM4 million to Universiti Sains Malaysia (USM), for the construction of the 4-storey "TORAY-USM Knowledge Transfer Centre" to enhance advancement of education for the betterment of the community.

TORAY-USM Knowledge Transfer Centre was officially opened by Dato' Seri Idris Jusoh, Minister of Higher Education together with Dato' Akihiro Nikkaku, TORAY President, on 7 December 2015.

Helping Children To Discover Science, Technology & Innovation

Tech-Dome Penang

a hub for technology, creativity and innovation

To stimulate greater interests in science, technology and innovation among our young Malaysians, TORAY Malaysia donated RM300,000 towards the Tech Dome Project, expected to be launched in July 2016.

Imagine • Invent • Inspire Science Fairs

to inspire the love of science & technology among youth

TORAY's products were displayed at science fairs where staff were present to share the significant scientific breakthroughs of its products. Visitors, particularly the students, were given the opportunity to engage in live demonstrations to explore and experience the wonders of science in our daily lives.

Internship

to develop Human Resources

Yearly, TORAY hosts on-the-job industrial trainings for local and foreign undergraduates so that they can acquire real-life working experiences and knowledge.

Teaching & Training Aids

PENFABRIC presented weaving looms to enrich UiTM students with practical knowledge and skills in textile manufacturing.

**Go Green
Preserve Natural Habitats**

Mangrove tree planting to protect life and property

On 12 December 2015, TORAY PLASTICS (MALAYSIA) successfully planted 150 mangrove saplings at Sungai Aceh, Nibong Tebal, Penang to protect the environment. Cash contribution was also channeled to the Penang Inshore Fishermen Welfare Association to extend their pedestrian bridge.

Recycle the Present, Save the Future

Yearly, PENFABRIC organizes "Green Day" initiatives to encourage recycling efforts and raise awareness among its staff. With strong support, funds have also been raised for charity.

Safety, Health & Welfare

Guided by the principle "Safety First", safety initiatives including fire-fighting trainings, fire drills and safety conventions are regularly held.

To stay healthy and happy, staff are encouraged to participate actively in sports and recreation activities hosted by the company.

Staff are also encouraged through company's awards and recognitions, to undertake social and voluntary work. Blood donation campaigns are held periodically.

Recognitions

2015 GOOD FACTORY 賞 表彰式

PENFABRIC was awarded by Japan Management Association for its excellent manufacturing, outstanding leadership, nurturing teamwork, unique educational and training systems.

PENFABRIC is committed to human ecological product safety and sustainable production conditions (Oeko-Tex Certified).

TORAY was commended by the Ministry of Higher Education for its education initiatives and developing local talents.

During his visit to TORAY Malaysia, the Minister of Higher Education thanked TORAY for its tremendous contributions towards the economic, social, scientific and technological development of Malaysia.
